-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 February 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

2. The objections to the drawings and the specification are overcome.

3. Applicant is further urged to clarify the claim language to read around any Mobile IP reference.

The claims can still be read directly on standard Mobile IP.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 9-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Inoue et al. (US 6,515,974 B1).

6. In regard to claims 9 and 15, Inoue disclosed:

a mobile terminal is associated with a first domain of said plurality of interlinked domains and a first subnet within said first domain, a name server of said first domain storing a name for said mobile terminal and a first output address of said mobile terminal, which first output address includes an identifying identification of said first subnet, whereby the input to the network of said name for said mobile terminal causes said name server of said first domain to output said first output address; (column 10, lines 6-24)

Art Unit: 2145

when said mobile terminal moves to a second subnet associated with a second domain of the plurality of interlinked domains, the name server of said second domain stores said name for said mobile terminal and a second output address for said mobile terminal, said second output address including an identification of said second subnet, and said first output address stored in said name server of said first domain is updated with an address of said name server of said second domain, whereby an input to said network of said name for said mobile terminal causes said name server of said first domain to output an address of said name server of said second domain, and causes said name server of said second domain to output said second output address; and (column 13, lines 5-15)

when said mobile terminal moves to a third subnet, also within said second domain, said second output address stored in said name server of said second domain is updated with a third output address, said third output address including an identification of said third subnet. (column 15, lines 46-57)

7. In regard to claims 10 and 16, Inoue disclosed:

no signal is sent between said first domain and said second domain as a consequence of the mobile terminal moving from the second subnet to the third subnet. (column 15, lines 46-57)

8. In regard to claims 11 and 17, Inoue disclosed:

said mobile terminal requests that an update be sent to said name server of said second domain upon moving to said third subnet. (column 15, lines 46-57)

9. In regard to claims 12 and 18, Inoue disclosed:

said name server of said second domain transmits updates to said name server of said first domain regarding status of said mobile terminal. (This is the standard function of Mobile IP, covered by reference in Inoue through column 10, lines 6-23)

10. In regard to claims 13 and 19, Inoue disclosed:

when said mobile terminal moves to a location within a third domain of said plurality of interlinked domains, a name server of said third domain is configured to notify said name server of said first domain to update said address of said name server of said second domain with an address of said name server of said third domain. (column 15, lines 46-57)

11. In regard to claims 14 and 20, Inoue disclosed:

Art Unit: 2145

when said mobile terminal moves to a location within a third domain of said plurality of interlinked domains, said mobile terminal is configured to notify said name server of said first domain to update said address of said name server of said second domain with an address of said name server of said third domain. (column 15, lines 46-57)

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
13. Aziz US 5,325,362
14. Chiou et al. US 6,473,413 B1
15. Perkins, C. RFC 2002: IP Mobility Support. October 1996.
16. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

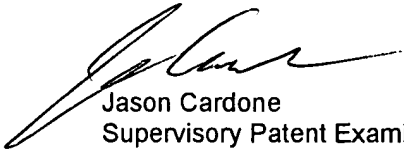

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
